

<b>Issue 18</b>	<b>Planning for Zero Waste</b>	
<b>Development plan reference:</b>	Section 7 City Region as a Low Carbon Place - Landfill	<b>Reporter:</b>
<b>Body or person(s) submitting a representation raising the issue (including reference number):</b>		
Scottish Government (PP57_03)		
<b>Provision of the development plan to which the issue relates:</b>		
Landfill (page 69)		
<b>Planning Authority's summary of the representation(s):</b>		
<p><u>Scottish Government (PP57_03)</u></p> <p>Following publication of Scottish Planning Policy the guidance in Annex B of the Zero Waste Plan was superseded. The reference at paragraph 7.12 should be updated to reflect the latest capacity tables in the Zero Waste Plan Annex B <b>(RSD22)</b>.</p>		
<b>Modifications sought by those submitting representations:</b>		
<p><u>Scottish Government (PP57_03)</u></p> <p>Paragraph 7.12 should be updated to reflect the latest capacity tables in the Zero Waste Plan Annex B to indicate that the ten year rolling landfill capacity for the SDP area is 4.7 million tonnes, base date 2013.</p>		
<b>Summary of responses (including reasons) by Planning Authority:</b>		
<p><u>Scottish Government (PP57_03)</u></p> <p>Clydeplan would accept the modification as it would reflect the most up to date figures from the capacity tables in the Zero Waste Plan Annex B <b>(ASD36)</b>. There is however an error in the Scottish Government's representation. The latest 2013 tables have the figure of 10.1 million tonnes for the Clydeplan area, or GCVplan as it is named in Annex B, and not 4.7 million tonnes which is the figure for the SESplan city region.</p> <p>If the Reporter is so minded, Clydeplan would suggest to following additions (underlined) and deletions (strikethrough) to the final sentence of paragraph 7.12 to read as follows:</p> <p>"The ten-year rolling landfill capacity requirement for the SDP area is <del>44</del> <u>10.1</u> million tonnes (ZWP, 2014 <u>2013</u>, Annex B Regional Capacity Table)."</p>
